- arup71062@gmail.com
- Purulia, West Bengal, India
- [Portfolio](#)

### EDUCATION

#### MANIPAL UNIVERSITY JAIPUR

- Bachelor Of Computer Application

#### MASAI

- Backend Development

### SKILLS

- Java, Spring Boot
- Hibernate / JPA
- REST APIs
- MySQL, MongoDB, Redis
- Git & GitHub
- Microservices
- Spring Security
- REST API Design

### LANGUAGES

- English: Advanced
- Hindi: Fluent
- Bengali: Fluent

### PROFILE SUMMARY

Backend Developer with 2.5+ years of experience in designing and developing scalable RESTful services using Java and Spring Boot. Experienced in building production-grade applications with efficient database design, transaction management, and performance optimization. Proven ability to write clean, maintainable code and contribute effectively in fast-paced development environments.

### WORK EXPERIENCE

#### Backend Development Engineer

DEC 2024 - PRESENT

#### Togethring Media Labs

- Designed and implemented microservice-based backend architecture using Spring Boot to support high-traffic production applications.
- Led backend development for analytics platforms, payment gateway integrations, Wix plugin services, and CRM system integrations.
- Built secure, scalable REST APIs with JWT authentication, ensuring robust access control and data protection.
- Improved performance and scalability by optimizing Hibernate/JPA queries and MySQL database schemas.
- Played a key role in building end-to-end backend workflows from design to deployment in production environments.

#### Java Backend Developer

JUN 2023 - SEP 2024

#### Heliverse Technologies

- Developed and maintained high-performance Java backend services supporting frontend applications and third-party integrations.
- Built and managed RESTful APIs using Spring Boot, following clean architecture and best practices.
- Designed and implemented core modules, including Customer Management System (CMS), payment gateway integration, and role-based access control (RBAC).
- Developed a property bidding system enabling real-time bidding workflows and secure transaction handling.
- Collaborated with cross-functional teams to translate business requirements into scalable and maintainable backend solutions.
